## DETAILED ACTION

### *Drawings*

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: 38, 39, 56, 82. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### *Specification*

2. The disclosure is objected to because of the following informalities: "35" as referenced on page 21, line 20 of the specification is not as shown in Figure 3, that is "35" does not reference an indentation on cushion 31.

Appropriate correction is required.

### *Claim Rejections - 35 USC § 112*

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, last line "said sides" has no antecedent basis. In claim 4, line 9 the limitation of "said sidewalls" is confusing as to which prior recited sidewalls are being referenced. In claim 14, line 4 "said protective head apparatus" has no antecedent basis. In claim 19, line 2 "said means for heating the head" has no antecedent basis.

***Claim Rejections - 35 USC § 102***

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Hartunian.

Hartunian discloses a protective helmet apparatus comprising a cushion 80 with a front portion 16 and sidewall portions 22, 24 and a cushion ocular aperture 82 providing communication between interior and exterior surfaces to define a viewing passage (see column 10, lines 60-68).

With respect to claim 2 the limitation of that the cushion cooperate with a casing is not seen to set forth any structure of the cushion not taught by Hartunian or any function of the cushion not inherent in Hartunian.

***Allowable Subject Matter***

7. Claims 3-22 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

***Conclusion***

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Note particularly, the similar head supports of Voss, Williams, Michelson and Gilliland et al.
